Statistics Junior at Texas A&M looking for a job or internship in data analytics with a strong background in statistical analysis and predictive modeling. Intern experience with Aztec Appraisals over 2 summers measuring the effects of long-term and short-term market fluctuations to find stable and shifting markets.

EDUCATION

Texas A&M University, College Station, Texas

August 2024 - May 2028

Bachelor of Science in Statistics

GPA: 3.3

RELEVANT EXPERIENCE

Residential Appraiser Intern, Houston, Texas

May 2026 - August 2026

Aztec Appraisals, LLC

- Gathered 2000+ Houston residential property records from HAR, cleaning datapoints in Microsoft Excel, while using Python, pandas, and XLOOKUP to transform columns.
- Queried and categorized subgroups based on zip code and value, storing cleaned data in SQL.
- Analyzed home sale price versus several factors to determine statistically significant differences in zip codes across Houston.
- Visualized trends across Houston's residential values in a Power BI dashboard with graphs and charts.

TutorLM, College Station, Texas

September 2025 - January 2026

Aggie Data Science Club - Undergraduate Research

- Led team's Calculus section as Chief A.I. Officer in a team of 17, developing and training an LLM.
- Summarized calculus 1 curriculum into a structured .txt file, importing into Python utilizing pandas analysis.
- Evaluated AI-generated responses for accuracy, relevance, and instructional quality, refining prompts and instructional workflows.

Statistics Learning Society Research Project, College Station, Texas

November 2025

Texas A&M Statistics Learning Society

- Developed Python-based statistical analysis to determine correlation between college students' average sleep duration and employment/occupation status.
- Performed statistical tests such as finding mean, standard deviation, and a T-test between 2 data sets to conclude no correlation.

SKILLS

- **Relevant Coursework:** Statistical Computing, Principles of Statistics, Math Statistics, Structured Programming in C.
- **Programming:** R (ggplot2, Dplyr), Python (pandas), SQL, Microsoft Excel (XLOOKUP, Power Query), Microsoft Word / Powerpoint, Power BI, Data visualization, Machine Learning, Data Management, Data Cleaning.

WORK EXPERIENCE

Student Coordinator - Lead Videographer, College Station, Texas

March 2026 - Present

Texas A&M College of Performance Visualization and Fine Arts

- Oversaw development of multiple educational presentations while being in charge of filming and editing.
- Interacted with 4+ A&M departments to coordinate meetings and organize filming / deadlines of projects.

EXTRACURRICULARS

Texas A&M Statistics Learning Society - Officer

August 2026 - Present

- Cooperated with team leaders to teach data cleaning in R, SQL, and visualization using ggplot2.
- Arranged informative and entertaining social events such as "Drinks and Chat" sponsored by Starbucks.

Freelance Photography/Marketing

February 2026 - Present

- Coordinated with 7+ clients to produce professional headshots, wedding photoshoots, and film Aggie Ring Dunks.
- Wrote, produced, and edited 30+ short form advertisements for Aztec Appraisals, expanding audience reach by 75,000+ views, increasing Instagram followers by 277% in 2 months.
- Collaborated with the Texas A&M Minority Association of Pre-Health Students to capture high quality portraits and officer group photos for promotional purposes.
